Re: Spectrum Tracking Systems, Inc. – Request for Extension of Time
Industrial/Business Pool, Conventional Station WPNV955

Dear Mr. Keane:

This letter dismisses as moot your December 22, 2008 request on behalf of Spectrum Tracking Systems, Inc. dba Electronic Tracking Systems (STS) for an additional extension of time for STS to complete the conversion of its law enforcement tracking system (LETS) operations from 217/219 MHz spectrum to designated LETS channels in the 216 MHz band in areas where Maritime Communications/Land Mobile, LLC (MC/LM) is the geographic license.¹ On June 6, 2009, the Wireless Telecommunications Bureau accepted MC/LM's notification regarding the lease of spectrum in those areas to STS.² Because STS is now authorized to operate on 217/219 MHz spectrum pursuant to lease, it no longer needs an additional extension of the waiver pursuant to which it was operating. Consequently, we conclude that your request for extension of time is moot.

We therefore dismiss, pursuant to Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 303(r), and Section 0.331 of the Commission's Rules, 47 C.F.R. § 0.331, the request for extension of time filed by Spectrum Tracking Systems, Inc. on December 22, 2008, as moot.

FEDERAL COMMUNICATIONS COMMISSION

Scot Stone
Deputy Chief, Mobility Division
Wireless Telecommunications Bureau
